Technology Exploration Division

_____**TE-2 Multiple Projects**

A student may enter two or three separate projects produced from the various technical areas. Example: (One project from the graphic arts, one from the electronics, one from the power and energy area, etc.) These projects must be made in a technology exploration lab course (multiple areas of study) rather than a unit shop (a single area of study class ie: woods, metals, etc). A point value will be assigned to multiple projects that have had equal time spent on each project. [As much time should be spent on a wood project as is spent on a graphic arts project] - *Group eligible to participate A, N, P and E.*
